CONTENTS

Volume 33. No. 1—September

Role of plasmids in virulence-associated attributes and in O-antigen expression in *Shigella dysenteriae* type 1 strains 1
Haider, K., Azad, A. K., Qadri, F., Nahar, S. and Ciznar, I.

Electrophoretic type B_2 of carboxylesterase B for characterisation of highly pathogenic *Escherichia coli* strains from extra-intestinal infections 11
Goullet, P. and Picard, B.

The role of *Escherichia coli* haemolysin in the pathogenic synergy of colonic bacteria in subcutaneous abscess formation in mice 17
Ushijima, T., Takahashi, M. and Seto, A.

The rise and fall of *Escherichia coli* O15 in a London Teaching Hospital 23
O'Neill, Patricia M., Talboys, Christine A., Roberts, A. P. and Azadian, B. S.

Analysis of the porphyrin content of fluorescent pus by absorption spectrophotometry and high performance liquid chromatography 29
Brazier, J. S.

The use of immunogold-silver staining to study antigen variation and bacterial entry into eukaryotic cells by conventional light microscopy 35
Van Putten, J. P. M., Hopman, Carla T. P. and Weel, J. F. L.

The relationship between colonisation, secretor status and in-vitro adhesion of *Candida albicans* to buccal epithelial cells from diabetics 43
Darwazeh, A. M. G., Lamey, P.-J., Samaranayake, L. P., MacFarlane, T. W., Fisher, B. M., Macrury, S. M. and MacCuish, A. C.

Ingested *Listeria monocytogenes* survive and multiply in protozoa 51
Ly, Thi Minh Chau and Müller, H. E.

Characterisation of opacity factor from group-A streptococci 55
Saravani, G. A. and Martin, D. R.

Ultrastructure of a spiral micro-organism from pig gastric mucosa (*"Gastrospirillum suis"*) 61
Mendes, E. N., Queiroz, Dulciene M. M., Rocha, G. A., Moura, Silvia B., Leite, Virginia H. R. and Fonseca M. Evangelina F.

Bactericidal action of PD127,391, an enhanced spectrum quinolone 67
Lewin, C. S. and Amyes, S. G. B.

Announcements 71

Books Received 73

Volume 33. No. 2—October

REVIEW ARTICLE
Phagocytosis of *Legionella pneumophila* 75
Halablab, M. A., Richards, L. and Bazin, M. J.

Virulence of ten serogroups of *Clostridium difficile* in hamsters 85
Delmée, M. and Avesani, V.

Application of small fragment restriction endonuclease analysis (SF-REA) to the epidemiological fingerprinting of *Staphylococcus aureus* 91
Haertl, R. and Bandlow, G.

Diversity of staphylococci exhibiting high-level resistance to mupirocin 97
Rahman, Mary, Connolly, Shahrzad, Noble, W. C., Cookson, B. and Phillips, I.

Plasmid profiles of *Shigella dysenteriae* type 1 isolates from Ethiopia with special reference to R-plasmids 101
Gebre-Yohannes, A. and Drasar, B. S.

Plasmids and factors associated with virulence in environmental isolates of *Vibrio cholerae* non-O1 in Bangladesh 107
Barja, J. L., Santos, Ysabel, Huq, I., Colwell, Rita R. and Toranzo, Alicia E.

Pathogenic factors of *Pseudomonas cepacia* isolates from patients with cystic fibrosis 115
Gessner, A. R. and Mortensen, J. E.

The use of selective media for the isolation of *Pseudomonas pseudomallei* in clinical practice 121
Wuthiekanun, V., Dance, D. A. B., Wattanagoon, Y., Supputtamongkol, Y., Chaowagul, W. and White, N. J.

Antibacterial activity of fluoroquinolones in combination with zidovudine 127
Lewin, C. S., Allen, Ruth A. and Amyes, S. G. B.

Announcements 133

Books Received

PROCEEDINGS OF THE PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND

Volume 33. No. 3—November

REVIEW ARTICLE
Lancefield group F and related streptococci 135
Whitworth, J. M.

Interactions of *Escherichia coli* and *Proteus mirabilis* with mouse mononuclear phagocytes 153
Wells, C. L., Jechorek, R. P. and Nelson, R. D.

Functional similarity between the haemolysins of *Escherichia coli* and *Morganella morganii* 165
Eberspächer, B., Hugo, F., Pohl, M. and Bhakdi, S.

Hepatotoxic activity of *Campylobacter jejuni* 171
Kita, E., Oku, D., Hamuro, A., Nishikawa, F., Emoto, M., Yagyu, Y., Katsui, N. and Kashiba, S.

Identification of *Fusobacterium* species by the electrophoretic migration of glutamate dehydrogenase and 2-oxoglutarate reductase in relation to their DNA base composition and peptidoglycan dibasic amino acids 183
Gharbia, S. E. and Shah, H. N.

A rat model of *Staphylococcus aureus* chronic osteomyelitis that provides a suitable system for studying the human infection 189
Power, M. E., Olson, M. E., Domingue, P. A. G. and Costerton, J. W.

Vaccination of mice with lipopolysaccharide (LPS) and LPS-derived immuno-conjugates from *Leptospira interrogans* 199
Midwinter, A., Faine, S. and Adler, B.

Announcements 205

Volume 33. No. 4—December

Pathogenesis of *Clostridium difficile* infection of the gut 207
Borriello, S. P.

Production of mouse monoclonal antibodies to *Pasteurella multocida* type A and the immunological properties of a protective anti-lipopolysaccharide antibody 217
Wijewardana, Thula G., Wilson, Christina F., Gilmour, N. J. L. and Poxton, I. R.

Correlation between culture of *Mycobacterium tuberculosis* and detection of mycobacterial antigens in cerebrospinal fluid of patients with tuberculous meningitis 223
Radhakrishnan, V. V., Sehgal, Shobha and Mathai, Annamma

Excision of a conjugative plasmid from the staphylococcal chromosome 227
Udo, E. E. and Grubb, W. B.

Mechanisms of zidovudine resistance in bacteria 235
Lewin, C. S., Allen, Ruth A. and Amyes, S. G. B.

Comparison of identification methods for oral asaccharolytic *Eubacterium* species 239
Wade, W. G., Slayne, M. A. and Aldred, M. J.

Purification and characterisation of an extracellular serine proteinase from *Aspergillus fumigatus* and its detection in tissue 243
Reichard, U., Büttner, Susanne, Eiffert, H., Staib, F. and Rüchel, R.

The limitations of IgM assays in the serological diagnosis of *Mycoplasma pneumoniae* infections 253
Sillis, Margaret

Protein profile typing—a new method of typing *Morganella morganii* strains 259
Senior, B. W. and Vörös, S.

3-Deoxy-D-manno-2-octulosonic acid in the lipopolysaccharide of various strains of *Pseudomonas cepacia* 265
Straus, D. C., Lonon, Miriam K., Woods, D. E. and Garner, C. W.

Detection of *Haemophilus influenzae* in cerebrospinal fluids by polymerase chain reaction DNA amplification 271
Van Ketel, R. J., De Wever, B. and Van Alphen, L.

Soluble and cell-associated haemagglutinins of Helicobacter (Campylobacter) pylori 277
Robinson, Jennifer, Goodwin, C. S., Cooper, Margaret, Burke, Valerie and Mee, B. J.
